“

As soon as you get a book, it's already out of date. One of the things I like about iCEV is, as soon as there is a change, they've already incorporated it into their program.”

The Cost-Effective Decision

On average, a CTE teacher will teach between three and seven preps during a school year. With iCEV, one subscription grants access to all courses within a CTE subject area resulting in significantly less cost per teacher as compared to a traditional textbook.

iCEV Online

Textbook

Gains Value

Constantly improving with new content and features.

Depreciates

The fastest depreciating asset schools purchase.

Constantly Updated

iCEV is updated based on changes in industry and state standards.

Becomes Outdated

The minute textbooks are purchased they are already outdated.

Variety of Resources

Interactive coursework is available alongside printable resources.

Limited Resources

Limited interactivity and resources are typically only in printed format.

LMS Integrations

Integrates with Google Classroom, Canvas, Schoology & more.

Unable to Integrate

Textbooks do not offer integration options with LMS platforms.
